

The HealthWay Deluxe

has the power to transform the air in your home or office into a germ free environment around the clock.

No home is immune to indoor air quality (IAQ) problems. New homes tend to have higher concentrations of chemicals. Older homes can be breeding grounds for mold and mildew. And all homes, no matter how they appear, contain dirt and dust.

The HealthWay Deluxe is such a powerful and effective machine it helps control everything from microscopic dust mite and mold spores to infectious bacteria and viruses.

And, it's the only indoor air quality system that safely removes and destroys odors and chemical vapors. HealthWay gives you the innovative option for customizing the air in your home and creating a pure, clean, comfortable environment.

Imagine a Cleaner Home in Just 30 Minutes

An environment with a minimal amount of dust, dirt, and odor.

HealthWay

DFS-Disinfecting Filtration System

HealthWay Attacks All Three Classes of Air contaminant's

Particles

Dramatically reduces particles down to 0.3 micron including pollen, dust, and pet dander. The air coming out of HealthWay is 99.99% particle-free at 0.3 microns and larger.

Bioaerosols and Microorganisms

Independent laboratory test of HealthWay's system confirm all bacteria, virus, mold and fungi is killed on contact .

Odors/Chemical Vapor

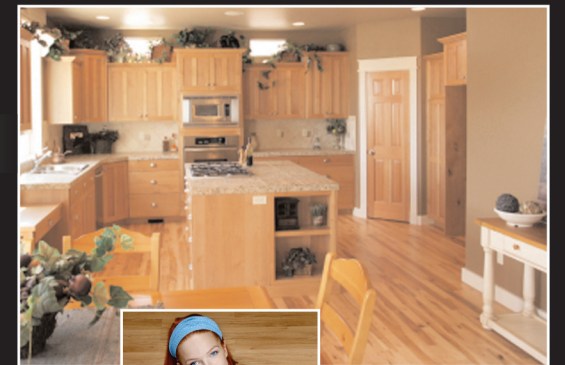

Destroys volatile organic compounds (VOC's) including cleaning supplies, paints, cooking smells, and pet odors and air contaminant's in the form of gases.

Benefits of Good Indoor Air Quality

Health - An environment virtually free of potentially harmful contaminant's

Cleanliness - An environment with minimal amounts of dust, dirt, and odors

Comfort - Added protection for your loved ones. An improved quality of life for allergy sufferers and those with asthmatic and breathing problems generally associated with poor indoor air quality.

Safe for your loved ones
